### **Car, Van & Fuel Benefits**

### **Company cars**

The annual benefit for company cars is based on a percentage of the list price. The percentage rate is dependent on the level of  $CO_2$  emissions. The rate is 2% for zero emission cars and electric cars with a range greater than

130 miles with emissions from 1-50g/km. There are further variable rates from 1-50g/km. For emissions of 51-54g/km the rate is 15%. The rate then increases by 1% for each additional 5g/km above 55g/km up to a maximum rate of 37% reached at 160g/km.

There is a diesel supplement of 4% for cars not certified to RDE2 standard (max of 37%).

### Car fuel benefit

£25,300 (2021-22: £24,600) × 'appropriate percentage'.

The charge is reduced if provision of private fuel ceases part way through the year. The fuel benefit is reduced to nil if the employee pays for all private fuel.
